

Eco Council Meeting - Thursday 13th March

 <p>Classes attended</p>	 <p>The Key, Purple, EYFS, 6th form, Yellow, Arc, Red, Blue</p>
 <p>Feedback from</p>  <p>RSPB Bird</p>  <p>watch week</p>	<p>All classes decorated bird boxes and representatives shared the decorations. Caroline shared that the adults supporting us to create a loving outdoor learning area have looked at where we can put the boxes. Caroline has spoken to Barry and we will fit them soon. Some will be by the tree as you enter the playground and some by the Arc.</p>
 <p>Let's</p>  <p>look at</p>  <p>our</p>  <p>next project</p>	<p>Recycling Plastics in school. each representative brought something they often put in their recycle box. We looked at each as well as two tubs given to us by the kitchen and a bottle from the office. What could we do with these instead of putting them in the bin. Several ideas were put forward like hanging them on a fence as containers, planters. We gave ourselves the challenge to make our plastic object into something for the next meeting and share it with the council.</p> <p>We also discussed creating a poster to put by the recycling bins to tell people to stop and think about whether they could use their plastic waster again in a different way. Caroline will create a frame and email out to classes for them to create a poster for the next meeting.</p>
 <p>Any other business</p>	<p>We went to see the duckling and eggs in the hall. While we were there Caroline put the hatched duckling in the cage to give the duckling who was half out of his egg more room. The duckling was then able to get out while we were there. We named him 'Eco'.</p> <p>Next meeting to be emailed out.</p>
